The Cure for the Common Bottled Water Addiction

1

Better Water!

- You control the quality of the water you drink!
- NSF Certification: Meets or Exceeds EPA requirements for listed contaminants
- Leader in the drinking water treatment industry since 1970.

10

The Problems Cost

- Bottled Water costs 25¢ - \$10.00/gallon and UP! More than:
 - Milk
 - Gasoline
 - Even beer!
- \$2,000/year for 750 gallons

=

3

The CURE!!!

- Better Water
- Less Money
- Convenient

8

The Problems Environment

- 1.5 million barrels of oil are used annually to manufacture water bottles (Earth Policy Institute)
 - 100,000 Cars can be fueled for one year with this much oil!
- Bottled Water has to either be pumped out of the ground, or treated:
 - Commercial RO
 - Commercial Filtration
 - Ozonation
 - UV Disinfection

=

5

The Addiction

- In 2006, Americans spent \$11 Billion on Bottled Water. (Corporate Accountability International)
- 9-10% Growth in bottled water consumption for the past 7 years. (IBWA)
- Bottled water is second only to soda.

● Better Water!

● Green Living!

● Less Money!

● Convenience!

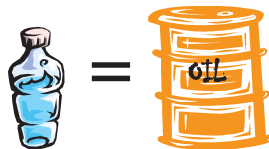

- NSF certified!
- Lower carbon footprint with only 1 filter/year!
- 8¢ per gallon!
- Save \$10,000 or more over bottled water!
- No more trips to the store!
- No heavy bottles to lift!
- All the water you need, right at your fingertips!

The Problems

Environment

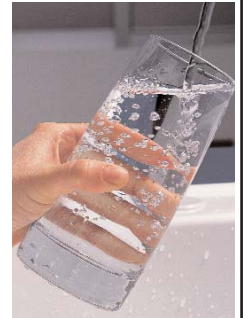

- Bottled Water uses fossil fuels
 - Making the Bottles
 - Filling the Bottles
 - Transporting the Bottles (to store)
 - Transporting the Bottles (to home)
 - Transporting the Bottles (trash/recycle)
- One billion pounds of CO₂ emitted in transportation (Worldwatch Institute)

Better Water!

Multi-Pure Drinking Water Systems are THE BEST!

- Provide delicious drinking water right at the kitchen sink.
- Costs only 8¢ per gallon -- much less than bottled water.
- Better for the environment!
- 30-day satisfaction guarantee, and durable stainless steel housing comes with a 25-year warranty.

The Problems

Environment

- 2 Million tons of plastic bottles are landfilled every year! (Worldwatch Institute)
- 1/10 water bottles are recycled. (Container Recycling Inst)
- 1,000 years to biodegrade
- 40% of the PET bottles recycled in the United States in 2004 were exported -- adding to the resources used.

The Problems

Your Health

- FDA does not regulate water that is bottled and sold in the same state!
- FDA guidelines even allow a small amount of fecal matter in bottled water, EPA allows none (NRDC)
